Reported by John Washbourne

The weather dawned fine and warm, a pleasant change from what we had been having. Unfortunately we were not able to get our Humber out of the drive because of stuff stored in front of it from our Factory (or should we say a Talbot/Galloway/Humber Garage, more about this on another occasion)

It was pleasing to arrive at the designated start to find one member already to go and it was not long before there were three and then just before we left the fourth car arrived. We travelled in convoy to the Blue Lotus Gardens to be met by Merv and Maree Sherlock and Neil and Kathleen Hiho. We all enjoyed a great day walking around the lotus gardens enjoying lunch and a good chat. For some it was a more costly experience as above the entrance price as we took home a waterlily or two.
