

Picnic at Hanging Rock 2017

SUNDAY 12 FEBRUARY 2017

It was a cool day with rain featuring off and on throughout the day. But it didn't stop the hundreds of vintage cars, cruisers and hot rods from coming out for the day. With some sneak peeks of the sun, people gathered around the cars to admire all the fine machines.

I proudly found a good spot to show off my "Lady Hawk" and as always she draws many onlookers to admire her.

I met a lovely gentleman who said he has a

Humber Snipe in his garage and has had it since he was 16yo. Now with grown-up children, this car sadly hasn't been restored to get on the road, but he hopes it will one day.

Unfortunately we got sidetracked and didn't exchange details. However, he did say he was once a Humber Club member many years ago.

He was very knowledgeable and pointed out that although my handbook in the car is for a Humber Hawk Mk IV, he clearly pointed out the features in the pictures in the handbook against my car, informing me that I actually have a Mk VI.

So it was well worth braving the cold and rain to meet such a nice Humber enthusiast and learn a little more about my "Lady Hawk".
