

## Kennedy's Klangers

Sunday 17th February at Victoria Park for the Daylesford Motorfest - what a day to remember! About 1300 vehicles of all ages and makes turned up for a full day of entertainment. The displays and demonstrations were veritable & entertaining.

The weather was perfect, a lot of people stated that the day was far better than Hanging Rock.

I drove my 1904 Olds all the way into the event. I was clocked at speed doing 60 to 65 kph, not bad for the little machine.

Maybe next year the Humber Car Club might come into the event for an outing. I know I'll be there, not sure what vehicle I'll take along. I'll go because I know it will be bigger and better as it can only grow.

By the time you receive this magazine I'll be getting things ready for my run up to the NT (nice drive). I have cut down on my tours that I have been leading over the last 20 years or more, I'm in my 80s so I suppose it is time. I still do them but not the hard core ones anymore (that's what I'm saying now). I don't think I'll join the TV watchers as I think that is boring.

The Hawk wagon is taking longer than I thought, mainly because of the window rubbers, it looks like I may have to get them made. Some of the people I used to get seals from have passed away or closed down (such is life).

Next big job on the wagon is the head lining, new carpets and door linings, so as you can see I've got a lot of work on the vehicle. I also have about 25 old clocks belonging to customers to service or repair (who has time to watch TV??).

Spare parts have been sent overseas plus local, this makes me very happy, but do not worry I still have lots here so give me a call on (03) 5348 7692. You never know what I have here to help keep your Humber on the road.

Well enough from me for now, till next time - Happy Humbering.

*Bob Bloody Kennedy*
