

Rotary Club of Westbury (Tas) Car Show Report - Ken Watts

29 October 2023

One of my favourite car shows of the year is the Westbury Car Show held in October and organised as a fundraiser for the local Rotary Club.

It attracts over 250 cars and is held on the picturesque village green.

Westbury is a lovely historic town about 30 km west of Launceston.

This years event didn't disappoint with everything from a 1905 Brush to late model Mustangs with everything in between.

I took my 1972 Rover P6B 3500 V8 this year.

Only two Humbers displayed this year - a lovely Series 2 Vogue which is an original low mileage car and a 1926 9/20 Roadster also unrestored and very original.

As I keep saying, its amazing what appears at car shows and display days. I always see vehicles that I haven't previously seen which just reinforces what a large number of historic and special interest vehicles there are in Tasmania.

From the desk of Ken and a sleeping/snoring Black Bear

Above is Ken's 1972 P6B Rover V8. I used to have the 1974 model V8 in faded red, one of my favourite cars to drive and I still miss it! ~ Ed
