THE 2 3/4 H.P. HUMBER SUCCESS AT SCOTTISH TRIAL

The following letter has been received from Humber, Ltd., the makers of the well-known Humber motor cycle, by the "Metro" Motor and Cycle Works, Valentine Street, Sydney, the local agents for these machines:—

"You will be pleased to learn that the 2 3/4 h.p. Humber is keeping up its reputation as a cup winner. Its consistency is daily being proved to be beyond criticism.

"In the Scottish Six Days' Trial, two 2 3/4 h.p. Humbers, conquered every test hill, despite loose surfaces and treacherous bends, checking in to time, and generally carrying out all that might be expected from a well-constructed, high-grade motor cycle, without the slightest mechanical trouble, or the loss of a single mark, thereby gaining

**TWO SILVER CUPS,
THE HIGHEST POSSIBLE AWARDS.**

"The severe grueling to which the machines were subjected during the Scottish Six Days' event, was such that only the best possible craftsmanship and materials could withstand it, and the fact that after the ordeal on the sixth day every machine was critically examined for defects and general condition, further proves the severity of the trial, and the small margin allowed for the reward of a silver cup. Proving that the Humber is

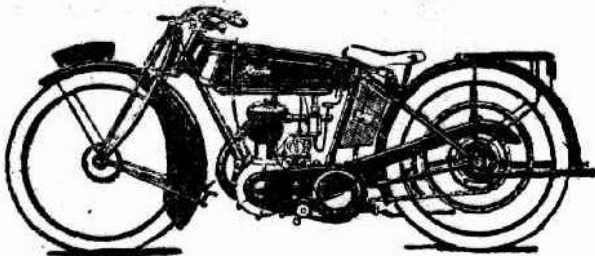

ALWAYS A WINNER.

"Yours faithfully,

"HUMBER LTD., Export Dept."

"P.S."—It is worth noting that the riders rode their machines from Edinburgh to Coventry the day following the finish of the trial—a distance of 330 miles. Not an adjustment was found necessary during the whole Scottish trial. Maximum reliability demonstrated in a high degree."

HUMBER MOTOR CYCLES

1923-24 Successes

THE SCOTTISH SIX DAYS' TRIAL

Two stock Humber Motor Cycles of 2 3/4 H.P., with Side by Side Valves entered in above Trial, and gained the highest possible Awards, namely, 2 Silver Cups.

In the A.C.U. Six Days' Trial for Stock Motor Cycles, 3 Humbers of 2 3/4 H.P., with Side by Side Valves, entered, and received the highest possible Awards, viz., 3 Gold Medals, and Special Teams Medal for the second year in succession.

In the A.C.U. Six Days' Annual Trial, the Humber again demonstrated its superiority against 300 entrants, and received the highest possible Awards, viz., Three Gold Medals in the crack class of the Trial.

The 2 3/4 H.P. S.S. Humber has, during the past 18 months, won over 21 strenuous trials.

IN FACT IT HAS NEVER FAILED,

and has attained the honor of being known as the World's Champion Motor Cycle for reliability, durability, and speed. It is of all British Manufacture, and fitted with 3-speed gear box, and kick start, containing 2 neutrals. It is of exceptionally sturdy build, and handsome appearance.

THE IDEAL MOTOR CYCLE FOR AUSTRALIAN CONDITIONS.
